2nd International Symposium on Navigated Sinus and Skull Base Surgery • La Habana, Cuba • 2016, June 11th -12th

Objectives

Surgical Navigation also known as Image Guidance is a key technology to support surgeons with orientation in this limited surgical field.

The symposium is intended to share and discuss different views about anatomy, surgical approaches, future developments and perspectives on a critical but constructive level.

The international faculty of leading surgeons with knowledge and experience about the current state of technology will guarantee an exchange of knowledge with top level surgeons.

International Faculty

Prof. Christopher Bohr, M.D. (Erlangen, Germany)

Prof. Roy R. Casiano, M.D. (Miami, USA)

Prof. Ricardo L. Carrau, M.D. (Columbus, USA)
